# WHY YOU SHOULD CHOOSE OUR STAGES OVER ANY OTHER

---

## Time and Cost Effective

Our unique Mobile Stage Trucks offer a complete stage, sound, light and power solution for all outdoor events. From small community events to large festivals, our "Plug 'n Play" trucks can do it all.

## Top Quality Sound

Designed by musicians, event coordinators, engineers and logistics specialists, our mobile stages are practical, reliable and comfortable. The result is great sound for both the audience and the musicians.

## Be Seen

All the stages have large pre-defined spaces for advertising and sponsorship material, making it a dramatic and effective advertising medium for you, your clients or your sponsors. We also offer a 'print and hang' service, so all you need to do is supply the artwork.

## The Whole Kit and Caboodle

All our stage trucks are fully equipped with high spec sound and lighting systems, on board generators and come with all required crew and technical staff.

The truck stages are hydraulic with levelling stabilisers, are roofed and come beautifully carpeted and skirted.

## A Stage For All Occasions

Our stage sizes range from 6x5m to 8x8m, with a 12x12m currently under construction. This means we can cater for large or small events and lighting and sound systems can be reduced or increased as required.

Visit the Gallery on our website to see our mobile stages in action.

## Amazingly Great Service

Our crew are not only experts in sound, but also all experts in customer service and will go above and beyond the call of duty – every time – to ensure your event runs smoothly and effortlessly. Read the testimonials on our website to see what we mean. [www.mobilestagetruck.com.au/testimonials.php](http://www.mobilestagetruck.com.au/testimonials.php)

Public Liability, Engineers' Certifications and Compliance documents are available on request.

## Indoor & Corporate Event Services

Mobile Stage Truck also offers complete production services for indoor events. Let us look after your next gala dinner, trade show, award presentation, party, media launch or wedding reception.

## PA Sound and Lighting Hire

We have a wide variety of sound and lighting equipment for hire which we have carefully selected to create the perfect party systems for weddings, birthdays or any other event. You can collect from us, we can deliver, or our trained technicians can come along and handle the whole event for you.
